

Data: The Ultimate Asset

Pioneering the Future of AI

***Creating AI-enabled businesses
and wealth transformation***

Who is Capitalogix?

The world is changing faster than ever before. The leaders of tomorrow are standing on the threshold of innovation today. Unfortunately, many will fail. Those who succeed find ways to harness disruptive, new technologies - not avoid them. Artificial Intelligence (AI) is reshaping the world, and we're at the beginning of a 25+ year bull rush.

Capitalogix has been around for 10+ years, pioneering the space, and taking the arrows in the back so you don't have to. Our scalable & comprehensive AI platform transforms your data into actionable insights, offering you an edge in today's dynamic world. Through years of research, development, and innovation we've created the **Capitalogix Insight Engine™**. Born from the trading industry, our platform has evolved to eliminate the fear, greed, and human mistakes from any industry. It offers customizable tools and products for any business.

Joining the Inner Circle lets you behind the velvet rope, gaining you access to the Capitalogix Suite, and the right to create a joint venture utilizing our technology. Welcome!

How Do We Create Value?

- **Ownership Opportunities:** Investors gain ownership in Capitalogix Holdings and all of our AI ventures
- **Access to Proprietary Technologies:** Investment entitles access to our advanced AI capabilities and exclusive features
- **Intellectual Property Rights:** Investors benefit from our patent portfolio, ensuring long-term stability and scalability
- **Opportunities in Joint Ventures:** Founding Partners have the right to create joint ventures, leveraging our AI expertise for mutual growth
- **Diverse Revenue Streams:** Investments lead to revenue generation through services, licensing agreements, trading profits, product sales, joint ventures, and intellectual property

Amplified Intelligence

We believe in **Amplified Intelligence** - not just Artificial Intelligence. That means the ability to make better decisions, take smarter actions, and continuously improve performance.

All without losing sight of the bigger picture.

Amplified Intelligence is the output of our Insight Engine™. This dynamic platform is made of equations, algorithms, methods, and tools designed to **amplify the data potential and enhance decision-making for businesses across industries.**

Businesses use the power of the Capitalogix Insight Engine™ to cut through noise and chaos to transform their data into highly valuable assets.

We have built the team to support that vision. Our long-standing team consists of some of the brightest minds: data scientists, mathematicians, and developers--they transform ideas into value-driven outcomes.

Our team and our technology are constantly getting better, and we're committed to continuous innovation. Our partners and advisors help us on that journey by providing new perspectives and technologies.

Innovation is a reminder that you can't be medium-obsessed. For example, Kodak's core mission was to preserve memories. It wasn't to sell film. Blockbuster's business wasn't to get people in their stores, it was to get movies in homes.

At Capitalogix, we recognize that the focus of innovation is to identify and enhance what remains constant – not what undergoes change. That's why our commitment, and our promise to you, is *Amplified Intelligence*.

Through advanced products and platforms, we create **More Ways to Win.**

Investment Opportunity

This opportunity is your gateway to the next 25+ years of AI. We strategically invest across diverse industries, generating Amplified Intelligence for enhanced performance

Howard Getson, CEO of Capitalogix, is selling 45% of the company in \$1 million increments. **\$1MM gets you 1% of the company and \$10 MM capacity in our proprietary trading fund.** This is a one-time event and the only way to gain ownership of Capitalogix.

Each owner participates on the same basis and is entitled to their pro rata share of the profits of the businesses and all future businesses, including liquidity events.

On top of your 1%, you receive:

- A Joint Venture Opportunity
- Intellectual property rights
- Fractional Chief AI Office
- An Advisory Board Seat
- Exclusive Event Invitations
- Expert Access to Ideas Exchange and Strategies

Becoming a Founding Partner Advantage: *Your piece of the profits and a 10x boost in our fund's potential*

AI empowers businesses to do more with less. In the past, businesses scaled based on people. Today, companies scale with less people and powerful technology. Our strategic approach involves launching many businesses this way to capitalize on early opportunities.

To learn more about this unique opportunity, get in touch with us.

I'm excited for our future together.
